

Grade 10 MFM2P
Ontario Educational Resources Bank (OERB) Activities

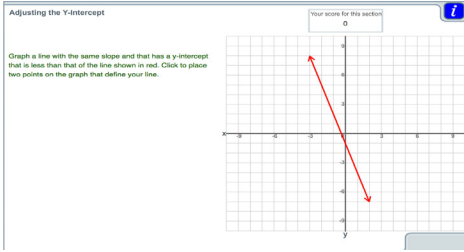

Measurement

Activity	Description
<p style="text-align: center;">Solving Proportionalities</p>  <p style="text-align: center;">Resource ID: ELO1071630</p>	<p>Practise solving proportions after viewing several worked examples that show how to set up and solve proportional statements following an algorithm.</p>

<p style="text-align: center;">Measurement Game Show</p>  <p style="text-align: center;">Resource ID: ELO1099620</p>	<p>Practise a variety of geometric concepts by answering multiple choice questions involving formulas, definitions, conversions, area, perimeter, surface area and volume.</p>
--	--

Linear Relations

Activity	Description
<p style="text-align: center;">Points of Intersection</p>  <p style="text-align: center;">Resource ID: ELO1089930</p>	<p>Practise reading graphs of linear systems by identifying the point of intersection when given two lines graphed and by identifying the intersecting lines when given a point of intersection on the graph.</p>

<p style="text-align: center;">Graphing Straight Lines</p>  <p style="text-align: center;">Resource ID: ELO1087620</p>	<p>Practise graphing straight lines by clicking on points to define a line that fulfills a set of conditions related to slope and the x- and y-intercepts.</p>
