

Grade 2 Data Management and Probability Ontario Educational Resources Bank (OERB) Activities

Data Management

Activity	Description
----------	-------------

Graphing!

Resource ID: ELO1301600

Practise recording and interpreting data by creating a tally chart and pictograph, then answering questions about the pictograph.

Picture Telling with Glyphs

Resource ID: ELO1141870

Practise interpreting and creating glyph graphs by using the glyph's legend to collect and represent data.

Sorting With Attributes

Resource ID: ELO1275910

Build understanding of classifying and organizing data by sorting buttons using one and two attributes (colour, shape, size, number of holes) as the sorting rule.

Probability

Activity	Description
----------	-------------

Probability With Spinners

Resource ID: ELO1295510

Build understanding of the likelihood of an event occurring by experimenting with a variety of spinners and using a tally chart to record and reflect on the results.
